Proficient across all core warehouse cycles, including **Receiving, Putaway, Stock Management, Picking, Packing, NCT, and Returns**. Expert in utilizing advanced warehouse technologies, handheld scanner devices (Honeywell CT40, Gladiator), and computer-based inventory systems to maximize tracking accuracy and operational efficiency. Proven leadership skills in coordinating teams, optimizing supply chains, and maintaining strict quality control standards in fast-paced retail and manufacturing environments.

CORE SKILLS

- **Warehouse Operations:** Receiving, Putaway, Order Picking & Packing, Inventory Management, Returns Processing, NCT (Non-Conformant Transfer)
- **Technology & Hardware:** Honeywell CT40, Gladiator Scanners, Handheld RF Guns, Computerized Inventory Systems, Data Entry

- **Logistics & Leadership:** Team Supervision, Daily Factory Operations, Production Planning, Quality Control, Supply Chain Optimization
- **Soft Skills:** Time Management, Problem Solving, Multilingual Communication, Adaptability, High-Speed Operations

PROFESSIONAL EXPERIENCE

MACY'S WAREHOUSE

Stock & Operations Associate | 07/2024 – 07/2026

- Managed end-to-end warehouse processes including high-volume **Receiving, Putaway, Stock positioning, Picking, Packing, and Returns processing.**
- Executed **NCT (Non-Conformant Transfer)** protocols efficiently to manage and route irregular or damaged merchandise.
- Utilized next-generation **Honeywell CT40** and legacy **Gladiator / RF scanner guns** to scan, track, and update live inventory systems with 100% accuracy.
- Operated desktop computers and handheld terminals to reconcile digital stock records and minimize inventory discrepancies.
- Maintained a highly organized and safe workspace, strictly adhering to warehouse safety regulations and fast-paced retail logistics demands.

WOOL FACTORY, PAKISTAN

Owner & Factory Manager | 05/2018 – 03/2024

- Directed daily factory operations, overseeing production planning, raw material procurement, and workforce scheduling.
- Supervised wool processing cycles, ensuring strict quality control benchmarks were achieved from raw material to final shipment.
- Managed customer relations, client orders, pricing negotiations, and handled end-to-end product delivery coordination.
- Drove business growth by optimizing workflows, reducing production waste, and enhancing overall customer satisfaction.
